## Career Objective

Motivated and detail-oriented Full Stack Developer with a strong foundation in JavaScript, TypeScript, React, Node.js, and MySQL. Bringing a unique background as an Anesthetist, I combine analytical thinking, focus, and teamwork skills to build efficient and scalable web applications. Eager to contribute to both local and international software teams, continuously learning and delivering high-quality solutions.

## Tech Stack

JavaScript, TypeScript, React, Node.js, Express.js, MySQL, Git, API Integration, HTML5, CSS3, Responsive Design

## Projects

- **Netflix Clone** – React, Node.js, API Integration
  - Implemented dynamic movie listings using TMDB API and secure authentication with Firebase.  
<https://netflix-clone-2025-mugs.vercel.app/>
- **Amazon Clone** – React, MySQL, Express.js
  - Developed a functional e-commerce interface with cart management and backend data handling.  
<https://netflix-clone-2025-web8.vercel.app/>
- **Q&A; App** – Full Stack (React + Node.js)
  - Built a community forum app with user login, post creation, and live data synchronization.  
<https://evangadi-forum-frontend-omega.vercel.app/>
- **Weather App** – React, OpenWeather API
  - Created a responsive weather dashboard with live API data and location-based search.  
<https://evangadi-forum-frontend-6cwe.vercel.app/>
- **Calculator App** – JavaScript & Modular CSS
  - Designed and implemented a responsive calculator with real-time input validation.

## Professional Experience

### Anesthetist | Addis Ababa, Ethiopia

Over six years of professional medical experience, ensuring patient safety and team collaboration during surgical operations. Developed strong focus, problem-solving, and analytical abilities that now guide a structured and detail-oriented approach to software development.

## Education

- BSc in Anesthesia – Wollo University (2019)
- Certificate in Full Stack Web Development – Evangadi Tech (2025)
